

Art Lunch

BİLFEN ÇAMLICA PRIMARY SCHOOL (Turkey)

Escola EB 2,3 de D. Duarte (Portugal)

About the Project:

This project idea started during the 2005 InSEA¹ (The International Society for Education through Art) congress in Turkey where Professor Kinichi Fukumoto from the Dept. of Arts Education, Hyogo University of Teacher Education, in Japan invited several art teachers to join him in a interchange project called: “Creating Imaginative Lunch for a Foreign Friend”’The results of the project conducted during 2005 and 2006 in ten countries were presented at the 2006 International congress in Portugal .

in April 2007 During the INTERNATIONAL EDUCATION OF VISUAL ARTS’ SYMPOSIUM conducted at Marmara University Faculty of Education and at Bilfen Schools in Istanbul Teresa Eça, a Portuguese researcher in art education invited a group of students aged 12-13 years old from Bilfen Çamlıca Primary School to make a similar interchange lesson with students from a school in Portugal

The Drawing Lesson

Aims : Understanding cultural differences transmitted by gastronomy and arts, different ways of making, living and feeling.

Crosscurricula: Arts; English, Sciences (nutrition); Geographical locations; histories and cultures: languages; costumes; religions, ways of seeing, being and expression

Lesson Plan: (1)Discussion about Food in general, about Local food and about representation of food in works of art. (2) Searching , (3) Drawing

Research (Guidelines for group discussion)

What is my preferred food? What kind of meal should I offer to a foreign friend?

Is it traditional from our country? Is it fast-food? What type of food? What are the ingredients?

¹<http://www.art.hyogo-u.ac.jp/fukumo/ArtLunchProject/ArtLunchTeachers.html>

What kinds of ingredients are better for us (See nutrition sources at the science book). Shall we ask our mothers? They will know something to help us. Shall we look at cooking books?

Shall we make something original, or something from other countries, or something from our country?

If we chose something traditional from our country , let's see why it is really unique, let's see how and where the ingredients are produced; how the food is prepared (where?; when? Tools, cooking procedures? Ways of serving the meal? Do you know stories about this food? Is it old? How old? Is it good for the health? Why?

Do you know about art works about meals and food? Paintings; Ceramics, Films, advertising – printed and television?

Show reproductions from history of art and contemporary art, for example: - still life: installations - popular arts- ceramics, carnivals, and religious or other ceremonies involving food, see art works by the XVII century Portuguese painter Josefa de Óbidos:

Invited teacher: Teresa Eça

Art teachers:

- ZeynepYrmaz
- Funda Peksen
- Serap Di

1. Letter from the Turkish students to the Portuguese students:

Istanbul is a bridge between Asia and Europe . The continents are combined by two excellent bridges .

Bilfen Çamlıca Primary School : [Ozel Bilfen Camlica](http://www.bilfen.com/tr/)

<http://www.bilfen.com/tr/>

Bilfen² is one of the most popular school in Istanbul .

In Istanbul there are many museums and historical places like Topkapi Palace , Dalmabahce Palace or the Blue Mosque. You can shop at the Grand Baazar or at the Spices Baazar.

Istanbul³ is the center of different cultures. There are many churches.

Football is the most popular sport. And Fenerbahae, Galatosoray, Besiktas the most popular teams. We usually go to football matches in our free times.

We like listening to all kinds of music. We also like reality shows. Nuri Bilge Ceylan is a worldwide film director.

We have lots of worldwide artists such as Abidin Diro, Ara Gûler ans Sinan, the architect who has built many buildings like the Selimiye Mosque.

2. The Drawings

These drawings made by the children at Bilfen School (age 12-13 years old) were made during a 1,30 h lesson with the art teachers, English teachers and the invited teacher. The drawings were rapidly executed using colored pencil , they illustrate the Turkish food the children like to eat and they would like to give to their Portuguese colleagues.

Art Lunch 2007 in Portugal

Escola EB 2,3 de D. Duarte and Escola Básica de Travassós (Portugal)

Teresa Eça brought the drawings made in Bilfen and invited two art teachers Isabel Ribeiro and Agostinho Pereira from Escola D. Duarte to join the project.

During May 2007 the art teachers Isabel and Agostinho invited their students from the 7th grade (ages 12, 13 years old) to reply to the drawings made by the students in Bilfen. The Portuguese students searched about food , food in art and advertising and they also researched about Turkey. They enjoyed very much to receive the letter and the drawings from Bilfen students.

The English teacher Carla Duarte helped the students to make the translations.

The art teacher Agostinho also invited younger students (ages 7 and 8) from another school where he taught to make a drawing about the same theme.

| Letter from the D-Duarte Students (7th grade, age 12/13 years old) to the Bilfen students | |

Hi,

We are some students from D. Duarte School.

We're sending you this letter because we want to tell you something about us: our customs and festivities. Our school is in Viseu⁴.

There was a famous fighter who was born in Viseu: Viriato. Viriato⁵ was an important leader who fought against the Romans.

Our football team (Académico de Viseu) isn't very strong and isn't very good! But we have three important national teams: Benfica, F.C. Porto and Sporting. Some of our football players are very famous: Cristiano Ronaldo and Figo.

Last month we celebrated one of our important holidays, 25th April, it was a revolution day, and it's a long story!

In August there is an important fair in Viseu – St. Mateus Fair.⁶

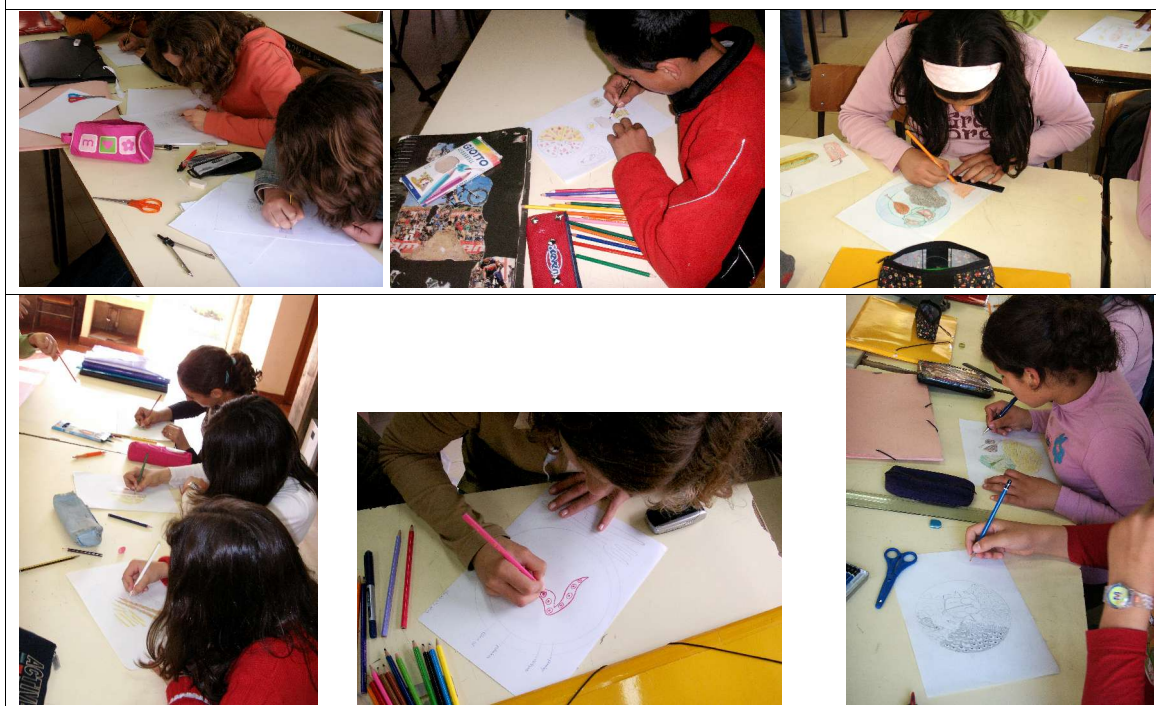

Our food is delicious. We eat fish (sardines, codfish, trout, etc.), meat (lamb, chicken, pork), potatoes, rice and our deserts are delicious!

In Viseu we have important monuments: the Cathedral and Grão Vasco Museum.

The University of Coimbra⁷ is also very famous! Lisbon is our capital and there are beautiful monuments to visit (Castelo de S. Jorge,⁸ Torre de Belém⁹, etc.).

That's all for now!

Bye!
